Dear teacher Adriana, Soroptimist and Patronato Por el Futuro de Fronteras

I want to thank you and the Soroptimist for giving me the opportunity and support with the scholarships that were of great help, to be able to pay for the semesters from which I learned too much, and gained a lot of new knowledge. Thanks to the support you gave me is that I have the opportunity to study at a university, Tecnológico de Cananea making the most of the opportunities they offer me. I would like to be able to have your support for the university, so that I can continue studying the career of mining engineering, which I have decided to study because it has many things I like, such as the environment, minerals and other things more related to the career. I appreciate very much your support to be able to finish my high school studies and continue university.

Sincerely,

Dulce Maria Z.
